EARPHONE
CONNECTION

888.372.1888
www.earphoneconnect.com

25139 Avenue Stanford
Valencia, CA 91355

TO CONNECT WIRED HEADSETS:

1. Make sure the Bluetooth microphones are off.
2. Hold the microphone cable above the arrow alignment mark.
3. Align with arrow on the adapter then click into place.
4. To remove, pull up on the spring-loaded cylindrical metal below the arrow on the cable.

Note: Not compatible with Motorola Radios using Built-In Bluetooth.

Note: When Bluetooth slide switch is in the off position no Bluetooth device can be used. This is effective if you want to use the radio with no microphone attached. In this state you can transmit and receive through the radio.

Leave the Bluetooth switch on to use the Wireless PTT unit.

MANUFACTURER'S LIMITED WARRANTY

Your Sales Receipt is required to validate & obtain warranty services.

Your Nighthawk is warranted against internal defects in material or workmanship. All of our earphones are warranted for 12 months. Hygiene restrictions prevent us from extending our limited warranty to wearable parts such as: Fin Ultra ear tips, earmolds, clear tubes & ear inserts.

The warranty is extended to the original purchaser only and does not cover the following:

- * Physical abuse
- * Damage from tugging or pulling
- * Crushing or smashing in any way, shape or form
- * Improper maintenance of unit
- * Frayed, torn or exposed wires

General misuse of the item such as: Excessive voltage, tampering with the unit or repairs attempted by someone other than the manufacturer will void the MANUFACTURER'S LIMITED WARRANTY.

The manufacturer reserves the right to evaluate & refuse warranty based on their evaluation. In order to obtain warranty services, proof of purchase must be returned along with the product.

For Returns Dept. & Return Authorization # Call Toll Free: (888) 372-1888.

After calling, send your return along with your name address & Return Authorization number to:

Visit our **YouTube Channel: EPC Headsets** for videos about Pairing the Air Pro Wireless PTT Combo Kit.

AIR PRO WIRELESS PTT COMBO KIT INCLUDES:

**EASY-CONNECT
CONNECTION FOR
WIRED HEADSETS**

**BUMP-FREE
PAIRING/PTT BUTTON:**
The pairing PTT button can be used as a transmit button to the external device.

**BTD BLUETOOTH ADAPTER
EP-BTD34EC-S**

**USE WITH YOUR ALL YOUR FAVORITE
WIRELESS EARBUD BRANDS.**

Wireless Earbuds Not Included.

**PAIRING EARBUDS TO THE BTD BLUETOOTH
RADIO ADAPTER:**

1. Attach the Bluetooth adapter to the radio. Power up radio. Bluetooth adapter LED will flash blue/red. Now it's in pairing state. Power up your Bluetooth earbuds and put them into pairing state. When radio adapter LED is solid blue, pairing is complete. Power down radio and earbuds. Note: To setup pairing state with eabuds with a charging case, press and hold the button on the case until LED is flashing then release.
2. Pairing BTR Bluetooth Remote Switch to Bluetooth Radio Adapter. With radio off, hold down the PTT button on the radio adapter making sure not to completely cover the LED. While holding down, turn on the radio at the same time until LED is flashing blue/red then release. Short press again then release. The LED will flash slow blue/red. Now the radio adapter is in pairing state. Now, press and hold the PTT button on the remote switch until LED is flashing blue/red then release. When LED on the radio adapter turns blue pairing is complete. Now power up earbuds. Wait about 15 seconds for everything to link up. Now you are ready to transmit.

NOTES:

- ▶ To power down remote switch press and hold the PTT button until LED turns RED or if all devices are powered off the remote switch will power down in 5 minutes.
- ▶ If no LED appears when trying to pair, connect the USB cable to charge for about 10 minutes. Full charge is about 3.5 hours.
- ▶ Earbuds can be activated from the pairing button on the BTD radio adapter as well.
- ▶ If the BTR buttons does not power up during pairing, let charge for about ten minute then try again.
- ▶ For all day use, BTR remote button should charge for about 3.5 hours.
- ▶ When Bluetooth slide switch is in the off position no Bluetooth device can be used. This is effective if you want to use the radio with no microphone attached (see backside for instructions). In this state you can transmit and receive through the radio.
- ▶ Leave the Bluetooth switch "On" to use the Wireless PTT unit.
