COMBI WIRELESS PTT SURVEILLANCE KIT

The **Combi** is our new Wireless PTT Kit that consists of a Easy-Connect Adapter and a Remote PTT wireless Transmitter. The best feature of the Combi is that you can attach just about any EPC Easy-Connect headset and key up the radio remotely from the PTT button. The button can be adhered anywhere with the addition of our Velcro finger piece or mount (included). This can benefit a variety of law enforcement divisions; patrol, undercover or tactical. Just combine the EPC headset of your choice to the Combi kit. The Combi is a great value to users who are already using EPC headsets.

FEATURES & BENEFITS:

- ▶ **ALWAYS ON!** Easy-Connect Adapter Receiver pairs via one-to-one.
- ▶ Add the Combi to your existing Easy Connect earphone kit or purchase one of our top-selling kits with the Combi as a bundle option.
- ▶ Wireless push-to-talk (PTT) Transmitter button can be attached to any handle bar, finger, or pistol grip. No Batteries to Charge!

KIT INCLUDES:

WIRELESS PTT FINGER TRANSMITTER

- ✓ 100,000 Presses
- ✓ Submersible
