

To connect, grab the cable from the connector with the fore finger & thumb on either side of the strain relief. When the connector falls into place, gently push down. Never force the connector into the adapter.

Quick Release (QR):

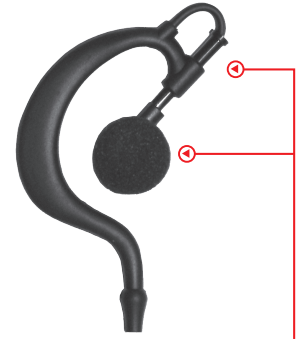

NOTE: For hardwire units, QR instructions do not apply.

To release, with the same two fingers grab the spring loaded metal release and pull up.

Note For Connecting XTS Adapter to the Radio: Attached bottom of the adapter first, pull back latch, press adapter against radio, release latch. Lock latch with screw.

Both small and large speaker earhooks feature the traditional swivel earhook:

Comfortable swivel earhook speaker can be used on either left or right ear. Simply adjust the height to fit your ear size.

Large Speaker size option rests comfortably over the ear, promoting hygiene.
