

FIN ULTRA™ AMBI

AMBIDEXTROUS COMFORT EAR TIP

Patent Pending: 15636607

The Fin Ultra™ Ambi is the first ambidextrous ear tip fit for both the left and right ear on the market. No more left and right, less confusion and hassle for the user. The ear tip is made of soft silicone gel delivering all day comfort and allows ambient sound to pass through for full situational awareness.

FEATURES & BENEFITS:

- ▶ The Fin Ultra™ Ambi is the first ambidextrous ear tip that can be worn in either the left or right ear. Available in Small, Medium Large in Black and Clear colors.
- ▶ The Fin Ultra™ Ambi is softer than ever, comprised of Shore 25 Silicone gel, making it one of the most comfortable ear tips available.
- ▶ The Fin Ultra Ambi includes wider openings allows for more ambient sound to travel through.
- ▶ The cone shape, fits into the opening of the ear canal without penetrating the inside of the ear, reducing ear fatigue.
- ▶ The soft Fin Ultra™ Ambi fits easily inside the contours of the ear, keeping the tip securely in place even during evasive movements.

AMBIDEXTROUS EAR TIP

FIN ULTRA™ AMBI INSTALLATION INSTRUCTIONS:

Insert the Ambi tip onto the elbow

Make sure curve of the Ambi tip follows curve of the acoustic tube for proper fit.

For LEFT EAR:
Remove the Ambi tip from the elbow. Twist the elbow to the opposite side then re-insert Ambi tip for left ear.

RIGHT

LEFT

Be sure to insert the flexible Fin Ultra deep into the contours of the ear cartilage for a secure fit.
