

NIGHTHAWK

WIRELESS LAPEL MICROPHONE FOR PUSH-TO-TALK APPS

THE SAFER CHOICE FOR HANDS-FREE COMMUNICATIONS.

The Nighthawk Bluetooth Body-Worn Microphone is a wireless device with Push-to-talk (PTT) capability that supports a wide range of communication needs. The unit stands apart from the rest, with 12+ hour talk-time, durable & rugged housing that offers more long-term durability, as well as a custom designed earpieces that deliver enhanced comfort and decreases exposure to radiation.

FEATURES & BENEFITS:

- ▶ Body-worn microphone with acoustic airtube removeable earpiece for improved comfort and safety.
- ▶ All day App operations on a single charge. Talk time 12 hrs. / Standby: 150 hrs.
- ▶ When using the Nighthawk as your mobile phone microphone, the + or – buttons function as volume control and operates as a music controller with “+” advancing and “-” reversing tracks. The multi-function button (MFB) answers and hangs up calls and plays and pauses music.
- ▶ Designed with a 3.5mm audio jack to accommodate an external earpiece or an external microphone, for even more field versatility.
- ▶ 500 milliamp rechargeable/replaceable lithium ion battery.
- ▶ Heavy duty housing with rotating body clip and large Push-to-Talk (PTT) button.
- ▶ For IOS & Android Smartphone POC Apps.
- ▶ **Enhanced Comfort:** The Fin Ultra™ offers a perfect fit for both the left or right ear and the open skeleton design allows for more ambient sound to travel through the earpiece.
