- ▶ Listen to dual audio from two paired Bluetooth Devices at the same time.
- ▶ Primary & secondary PTT are switchable, so the user can assign priority.
- ▶ Uni-directional microphone, 128-Bit Key Encryption, 20+ Hour Talk Time.

## FREQUENTLY ASKED QUESTIONS:

- Q. Can you press both buttons at the same time?  
A. No, only one at a time.
- Q. Will the radio hang up your phone call?  
A. As long as the caller is still on the line the call will continue even through radio interruptions.
- Q. Is there any bleed, can the caller or the radio hear each other's conversations?  
A. No.
- Q. What if my radio has built-in Bluetooth?  
A. If your radio has built-in Bluetooth (Ex. Harris XG-100, XL200-P, Kenwood NX5000 Series), no Bluetooth adapter is required.
- Q. What is the range?  
A. 40 feet (line of site).
- Q. Can it work with any smartphone?  
A. It will work with most major brands.
- Q. How long can you use it on one charge?  
A. 20 hours continuous talk time.
- Q. How secure is it?  
A. 128-bit key Bluetooth encryption.
