

## MANUFACTURER'S LIMITED WARRANTY

Your Sales Receipt is required to validate & obtain warranty services.

Your EPC product is warranted against internal defects in material or workmanship. All of our earphones are warranted for 12 months. Hygiene restrictions prevent us from extending our limited warranty to wearable parts.

The warranty is extended to the original purchaser only and does not cover the following:

- \* Physical abuse
- \* Improper maintenance of unit
- \* Damage from tugging or pulling
- \* Frayed, torn or exposed wires
- \* Crushing or smashing in any way, shape or form

General misuse of the item such as: Excessive voltage, tampering with the unit or repairs attempted by someone other than the manufacturer will void the MANUFACTURER'S LIMITED WARRANTY.

The manufacturer reserves the right to evaluate & refuse warranty based on their evaluation. In order to obtain warranty services, proof of purchase must be returned along with the product.

For Returns Dept. & Return Authorization # Call Toll Free: (888) 372-1888.

After calling, send your return along with your name address & Return Authorization number to:  
The Earphone Connection, Inc.  
25139 Avenue Stanford  
Valencia, CA 91355

### IMPORTANT SAFETY INFORMATION

Earphone Connection, Inc. products are designed to produce a specific audio output level at maximum rated power. Modifying these devices in any way including adding or removing components and accessories may change the audio output of the device and could result in PERMANENT HEARING DAMAGE.

Many countries have regulations defining the amount of noise that an individual can be subjected to during a normal workday. Compliance is application-dependent and standards vary. It is the SOLE RESPONSIBILITY of the end user to determine applicability and compliance to local hearing protection regulations.

Earphone Connection, Inc. strongly recommends that the radio is off before installation of audio accessory. Once audio accessory is securely installed radio can be turned on. Radio volume switch is recommended to set at low position and adjusted once radio is turned on.

### FCC DISCLAIMER

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or TV reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FCC CAUTION:

To assure continued compliance, any changes or modifications to this device not expressly approved by manufacture could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

### DECLARATION OF CONFORMITY FOR EU COUNTRIES

EMC Directive 2014/30/EU (including amendments)  
Low Voltage Directive 2014/35/EU  
RED Directive 2014/53/EU (if product has RF function)

The full text of the EU Declaration of Conformity is available from the following internet address:

### WARNINGS/CAUTIONS

- Children should use this device under the supervision of adults.
- Do NOT use your headset at a high volume for any extended period of time.
- To avoid hearing damage, use your headset at a comfortable, moderate volume level. – Turn the volume down on your device before wearing the headsets, then turn the volume up gradually until you reach a comfortable listening level.
- Use caution and follow applicable laws regarding mobile phone and headsets use while driving.
- Focus on your safety and that of others if you use the headset while engaging in any activity requiring your attention, e.g., while riding a bicycle or walking in or near traffic, a construction site or railroad and follow applicable laws regarding headsets use, etc. adjust your volume to ensure you can hear surrounding sounds, including alarms and warning signals.
- Do NOT submerge or expose the product for extended period to water.
- **When using this product, basic precautions should always be followed, including the following:**
  - Read all the instructions before charging.
  - To reduce the risk of injury, close supervision is necessary when the headsets is charging near children. Use this product only with a power supply that meets local regulatory requirements (e.g. UL, CSA, VDE, CCC). Only charge with the charging cable approved by manufacturer. Other charging cables may not meet applicable safety standards, and charging with such cables could pose a risk of injury to the users or damage to the device.
  - Do not charge in excess of its output rating.
  - Do not disassemble the product. Doing so may result in risk of fire or injury to persons.
  - Store devices in a cool, dry place, & the working temperature should be 0-45°C(32-113F).
  - Working in an environment that is too cold, too hot or too humid may shorten the life of the battery.
  - Have servicing performed by the manufacturer only.
  - To charge the internal battery, use USB terminal or USB adapter at normal temperature.
  - Do not connect the headsets under charging mode
  - When charging the battery, if any strange odor or high heat is noted, please immediately remove the plug - from the device and from the outlet.
  - Charge the headsets at least once every six months even if not used for a long period of time.

## AIR PRO WIRELESS WIRELESS PTT COMBO KIT

Bluetooth™

Visit our **YouTube Channel: EPC Headsets** for videos about Pairing the Air Pro Wireless PTT Combo Kit.

[www.earphoneconnect.com](http://www.earphoneconnect.com)

## AIR PRO WIRELESS PTT COMBO KIT FOR MOTOROLA APX INCLUDES:

### REMOTE PTT SWITCH

EASY-CONNECT CONNECTION FOR WIRED HEADSETS

**ON/OFF KILL SWITCH:**  
Turn ON & OFF Bluetooth devices. ("OFF" mode reverts radio to talk & listen).

**BUMP-FREE PAIRING/PTT BUTTON:**

The pairing PTT button can be used as a transmit button to the external device.

### BTD BLUETOOTH ADAPTER

### PAIRING BLUETOOTH DEVICES:

**STEP 1:** Attach the BLE radio adapter to radio. Power up radio. Adapter will automatically enter pairing mode stated by BLUE/RED flash.

Engage your Bluetooth device (ie. Bluetooth earbuds, etc.) into pairing mode. Refer to your specific Bluetooth device (ie. Bluetooth earbuds, etc.) manual for this.

When solid Blue LED appears on the BLE adapter, pairing is complete.

### TO PAIR THE REMOTE PTT SWITCH, FOLLOW THESE STEPS.

**STEP 1:** Attach the BT adapter to the radio and power up the radio.

**STEP 2:** Hold the remote PTT button until LED appears then release.

**STEP 3:** Double press the remote PTT button until LED is flashing BLUE/RED then release.

**STEP 4:** When flashing has stopped, pairing is complete.

Next time using the kit, simply power up the radio, Bluetooth device and remote finger switch. All devices will automatically connect.

**Note:** Insert both earbuds to ears to ensure a solid connection, then take one out and use one at a time to conserve earbud battery life if you choose.

### TO PAIR ADDITIONAL BLUETOOTH DEVICES:

You will need to manually pair the devices. Step 1: Hold down the PTT/Pairing button on the radio adapter with the tip of your finger and power up the radio at the same time. Keep holding until the LED flashed BLUE/RED then release, follow the same pairing procedure in step 1 from "Pairing Bluetooth Devices" section.

**To power OFF the Remote PTT Switch,** Power Off the radio first, wait a few seconds. Then press and hold the Remote Switch PTT Button until no LED appears, then release.

**To charge the Remote PTT Switch,** connect the USB cable to a wall charger and the other end to the Switch. 3 – 4 hours full charge. A full charge should last about 400 hours.

If adapter is powered off, the finger switch will disconnect. Make sure to power on the remote finger switch, when you power on the adapter.

### TO CONNECT WIRED HEADSETS:

**1.** Make sure the Bluetooth microphones are off.

**2.** Hold the microphone cable above the arrow alignment mark.

**3.** Align with arrow on the adapter then click into place.

**4.** To remove, pull up on the spring-loaded cylindrical metal below the arrow on the cable.

**Note: Not compatible with Motorola Radios using Built-In Bluetooth.**

▶ **Note:** When Bluetooth slide switch is in the "Off" position, no Bluetooth device can be used. This is effective if you want to use the radio with no microphone attached. In this state you can transmit and receive through the radio.

▶ Leave the Bluetooth switch in the "On" position to use the Wireless PTT unit.
