

MANUFACTURER'S LIMITED WARRANTY

Your Sales Receipt is required to validate & obtain warranty services.

Your EPC product is warranted against internal defects in material or workmanship. All of our earphones are warranted for 12 months.

The warranty is extended to the original purchaser only and does not cover the following:

- * Physical abuse
- * Improper maintenance of unit
- * Damage from tugging or pulling
- * Frayed, torn or exposed wires
- * Crushing or smashing in any way, shape or form

General misuse of the item such as: Excessive voltage, tampering with the unit or repairs attempted by someone other than the manufacturer will void the MANUFACTURER'S LIMITED WARRANTY.

The manufacturer reserves the right to evaluate & refuse warranty based on their evaluation. In order to obtain warranty services, proof of purchase must be returned along with the product.

For Returns Dept. & Return Authorization # Call Toll Free: (888) 372-1888.

After calling, send your return along with your name address & Return Authorization # to:

The Earphone Connection, Inc.

IMPORTANT SAFETY INFORMATION

Earphone Connection, Inc. products are designed to produce a specific audio output level at maximum rated power. Modifying these devices in any way including adding or removing components and accessories may change the audio output of the device and could result in PERMANENT HEARING DAMAGE.

Many countries have regulations defining the amount of noise that an individual can be subjected to during a normal workday. Compliance is application-dependent and standards vary. It is the SOLE RESPONSIBILITY of the end user to determine applicability and compliance to local hearing protection regulations.

Earphone Connection, Inc. strongly recommends that the radio is off before installation of audio accessory. Once audio accessory is securely installed radio can be turned on. Radio volume switch is recommended to set at low position and adjusted once radio is turned on.

The ENC Feather should be stored in a dry and ventilated environment, to avoid oil, water, moisture and dust, which will affect the product's performance.

FCC DISCLAIMER

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or TV reception, which can be determined by turning the equipment off and on, the user is encouraged

to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC CAUTION:

To assure continued compliance, any changes or modifications to this device not expressly approved by manufacture could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
