

TORPEDO™ AERODYNAMIC ALL DAY COMFORT EAR BUD

BUILT FOR ALL DAY COMFORT & 360° SITUATIONAL AWARENESS.

The original patented design of the **Torpedo™ Aerodynamic Earbud** adds a whole new dimension to Situational Awareness. Delivering unprecedented comfort, the soft silicone fins on the Torpedo™ Ear Bud contract or expand according to the user's ear without the need of sizing. Air passes through the four aerodynamic fins, allowing sound to enter the ear canal evenly.

- ▶ AIR PASSES THROUGH THE FINS ALLOWING SOUND TO ENTER THE EAR CANAL EVENLY TO PREVENT NOISE FROM BEING TRAPPED LIKE MOST CONVENTIONAL EAR BUDS.

- ▶ FOUR AERODYNAMIC FINS ATTACH TO THE CORE ALLOWING FOR AMBIENT SOUND & RADIO TRANSMISSION.

US PATENT NO. D659126

FEATURES & BENEFITS:

- ▶ The Torpedo's original patented design adds a whole new dimension to Situational Awareness.
- ▶ The Torpedo™ Ear Bud affords the user long lasting comfort & sound clarity like never before.
- ▶ The fins on the Torpedo™ Ear Bud self-adjust according to the users ear without the need of sizing. The soft silicon fins contract or expand when necessary.
- ▶ With the universal fit of the Torpedo™ Ear Bud, it's easy to attach to most sound devices with an acoustic tube.
- ▶ The Torpedo™ is composed of soft silicon material that is easy to clean with water or an alcohol swab.
