## MANUFACTURER'S LIMITED WARRANTY

Your Sales Receipt is required to validate & obtain warranty services.

Your EPC product is warranted against internal defects in material or workmanship. All of our earphones are warranted for 12 months. Hygiene restrictions prevent us from extending our limited warranty to wearable parts such as: Fin Ultra™ ear tips, earmolds, clear tubes & ear inserts.

The warranty is extended to the original purchaser only and does not cover the following:

* Physical abuse                        * Improper maintenance of unit
* Damage from tugging or pulling        * Frayed, torn or exposed wires
* Crushing or smashing in any way, shape or form

General misuse of the item such as: Excessive voltage, tampering with the unit or repairs attempted by someone other than the manufacturer will void the MANUFACTURER'S LIMITED WARRANTY.

The manufacturer reserves the right to evaluate & refuse warranty based on their evaluation. In order to obtain warranty services, proof of purchase must be returned along with the product.

For Returns Dept. & Return Authorization # Call Toll Free: (888) 372-1888.

After calling, send your return along with your name address & Return Authorization # to:

The Earphone Connection, Inc.
25139 Avenue Stanford
Valencia, CA 91355

## IMPORTANT SAFETY INFORMATION

Earphone Connection, Inc. products are designed to produce a specific audio output level at maximum rated power. Modifying these devices in any way including adding or removing components and accessories may change the audio output of the device and could result in PERMANENT HEARING DAMAGE.

Many countries have regulations defining the amount of noise that an individual can be subjected to during a normal workday. Compliance is application-dependent and standards vary. It is the SOLE RESPONSIBILITY of the end user to determine applicability and compliance to local hearing protection regulations.

Earphone Connection, Inc. strongly recommends that the radio is off before installation of audio accessory. Once audio accessory is securely installed radio can be turned on. Radio volume switch is recommended to set at low position and adjusted once radio is turned on.

*Wireless Earbuds Not Included.*

BLUETOOTH CONNECTION

## PAIRING INSTRUCTIONS:

**1. Pairing Earbuds to the Bluetooth Radio Adapter (BTD).** Attach the Bluetooth Adapter to the radio. Hold down the pairing button on the radio adapter and turn on radio at the same time. Keep holding until adapter flashes Blue/Red, then release. Now it's in pairing state. Power up your Bluetooth earbuds and put them into pairing state. When radio adapter LED is solid blue, pairing is complete. Power down the radio & earbuds. *Check your personal earbud instructions for manual pairing.*

**2. Pairing BTR Bluetooth Remote Switch to Bluetooth Radio Adapter (BTD).** With radio off, hold down the PTT button on the radio adapter making sure not to completely cover the LED. While holding down, turn on the radio at the same time until LED is flashing Blue/Red then release. Short press again then release. The LED will flash slow Blue/Red. Now the radio adapter is in pairing state. Next, press & hold the PTT button on the remote switch until LED is flashing Blue/Red then release. When LED on the radio adapter turns blue, pairing is complete. Now power up earbuds. Wait about 15 seconds for everything to link up. Now you are ready to transmit.

To pair additional earbuds, repeat Step 1.

Next time you use the Air Pro Wireless, power up radio & earbuds. Press on the pairing button on the radio adapter until it flashes Blue, then release. When radio adapter LED is solid Blue, link has been established. Press & hold the BTR PTT Button until LED appears, then release. The BTR will now link within 10 seconds.

## NOTES:

▶ To power down BTR, press and hold the PTT button until LED turns RED. If all devices are powered off the remote switch will automatically power down in 5 minutes.

▶ If no LED appears on the BTR when trying to pair, connect the USB cable to charge for about 10 minutes, then try again. *For all day use, BTR should charge for about 3.5 hours.*

▶ Earbuds can be activated from the pairing button on the BTD radio adapter as well.

▶ LED automatically shuts off after 15 seconds.
